
Was I asleep when this was discussed at the last LC meeting?

Hi Jane,

Have you seen the agenda for the upcoming board meeting? If not, perhaps you can tell me that I was asleep when the following motion was brought forward.

Report of the Committee (Report 6)
Director Dan Lawson

Motion to approve the establishment of an AHC to develop a Lake Life Enjoyment Plan to allow all approved lake vessels and lake activities to coexist on the lake considering amongst others numbers of vessels, wake size, noise and compliance and taking into account the Lake Committee recommended motions for a moratorium for wake or surf boats and for a mandatory boating safety course for boat operators on Lake Auman.

To my reading, this reads as if the LC discussed this and brought it forward. Also, if there is a AHC lake committee, what are we doing? Not sure that this community needs two lake committees.

If I was asleep, just tell me and all is well.

Hope you and Dick are enjoying yourself.

Steve

You were not asleep.

This is NOT a motion from the committee, but is being brought forward by Dan Lawson as Lake Committee liaison. Basically he is overriding the opinions of the lake Committee and establishing an ad hoc committee. I also know this subject is being brought to the existing long range planning committee.

Honestly, I am very frustrated, and a great deal of it is toward our current chair who is not strongly representing the lake committee. As a result, the board is taking the issues to other outlets.

I am sorry we are away and will not be at the next meeting.

Jane

Have you contacted others on the committee? I'd call Ron Shepard and Don Snell to discuss before the meeting. Again, sorry we are away.

Jane
