Subject: Re: Did You Let Developers & Sub-Developers Vote?

Pat,
Your message does not offer any explanation of two complete sheets of uniform votes (64) in a row, nor large sections of at least two others. That is a statistical impossibility. How would you then explain duplicate votes? How do you know all of those votes were mailed and not just copied? And...when asked about the anomaly, the response was a 'developer brought in a stack of votes'. According to the by-laws, developers are not eligible to vote. If your explanation is that an email and complaint were received and filed, that is entirely unsatisfactory; especially as Sharon has been unable to validate your assertion.

v/r,

paul

Subject: Re: Did You Let Developers & Sub-Developers Vote?

Thank you for your email. It has been received and filed.

On Tue, Mar 30, 2021 at 8:20 PM Ed Silberhorn <edsilberhorn@aol.com> wrote:

Hey Pat,

I know for a fact that there are Developer lots within Seven Lakes West as well as Sub-Developer lots (check all the Lakeside lots and the Garner lots, for instance) so I'm not sure what you are saying. I also know that both Don Smith and Paul Brezinski have asked Sharon Hodges, who ran the election, to investigate their claims that perhaps Developers and Sub-Developers, who pay no dues and cannot vote, had been allowed to vote. These two claims were made to Sharon as was my letter. The Board is not supposed to be involved in the election process so we wonder why you are responding for her? Anyway, she said she did not know and would need to investigate. That's why I wrote today since it has been a while and she had not responded to anyone.

Respectfully,

Ed

Thank you for your inquiry. Ballots were mailed to all eligible lot owners for the 2021 election based on the SLWLA By-Laws. There are no developer lots within Seven Lakes West. I hope you can help spread the truth to squash any rumors to the contrary.

On Tue, Mar 30, 2021 at 9:52 AM 'Ed Silberhorn' via SLWLA Board of Directors <board@7lakeswest.com> wrote:

Sharon,

Rumors are circulating through the community that you let Developers and Sub-Developers who are not required to pay dues cast votes nonetheless. Of course, since they do not have to pay dues they do not get the right to vote. Would you please put this matter to rest by finishing your investigation and finally issue your report!

Thanks,

Ed Silberhorn

Paul,

Hard to believe. Clearly, a lot of double talk and a good possibility that illegal votes were cast....

Not sure how Sharon can say there are no developer lots within the community. Have the rules changed regarding the classification/definition of developer lots?

Jim

First off, no Board member should have been involved with the ballots and clearly Pay Zlotin doesn't even understand what a developer lot is.

Unfortunately, this year by assigning "control numbers" to incoming ballots instead of just keeping track of lot numbers on outside envelopes, it will be impossible to find a paper trail. We don't have any idea when the original envelopes were discarded, which should have been an accounting of lots voting. Statistical improbability may be accurate, but impossible to prove.

Actually, the ballots do have to be kept for a year...a total recount would have to be done.
